www.tamponcolor.de

Tamponcolor ist ein 1977 gegründetes mittelständisches und inhabergeführtes Unternehmen mit Sitz in Neu-Isenburg, in unmittelbarer Nähe des internationalen Flughafens Frankfurt am Main.

Tamponcolor befasst sich ausschließlich mit der

- Entwicklung
- Projektierung
- Konstruktion
- Vertrieb
- Fertigung und Montage von Tampondruckmaschinen, den entsprechenden Peripheriegeräten, sowie Zubehör.

Das Produktprogramm reicht von Standardmaschinen bis hin zu kundenspezifischen Komplett-automationen.

Die langjährige Erfahrung, verbunden mit Innovation, Kreativität und Flexibilität, zeichnet **Tamponcolor** als Systemlieferant für die vielfältigen und anspruchsvollen Aufgabenstellungen seiner internationalen Kunden aus.

Tamponcolor was founded in 1977 and is still a pure family owned and managed company in Neu-Isenburg nearby the Frankfurt International Airport.

The activities of **Tamponcolor** concentrate on

- research and development
- design
- construction
- sales
- fabrication and assembly of pad printing machines, the corresponding peripheral systems and accessories.

The product range reaches from standard machines to customer specific all-automatic printing solutions.

The long years of experience combined with innovation, creativity and flexibility characterize **Tamponcolor** as a supplier of industrial systems for the various and demanding printing tasks required by the company's international customers.

Material / Material

Wir liefern grundsätzlich aus
Spezialsilikon hergestellte
Drucktampons. Diese werden in
unserem Hause gefertigt.

Härtegrade:

weich → **w** → 2-4° Shore A
mittel → **n** → 6-8° Shore A
hart → **h** → 10-12° Shore A
spezial → **s** → kundenspezifisch

Form, Größe und Härte der Tampons
richten sich nach Material, Formgebung
und Druckbild des Druckgutes.
Die Tampons sind auf einer Holzplatte
aufgeklebt. Auf dieser wird der
Tamponhaltering (notwendig zur
Befestigung des Tampons an der
Maschine) angeschraubt.

Für spezielle Anwendungsfälle
entwickeln wir nach Bedarf neue
Tamponformen.

All printing pads we deliver are made of
special silicone.

These pads are produced in our
company.

Degrees of hardness:

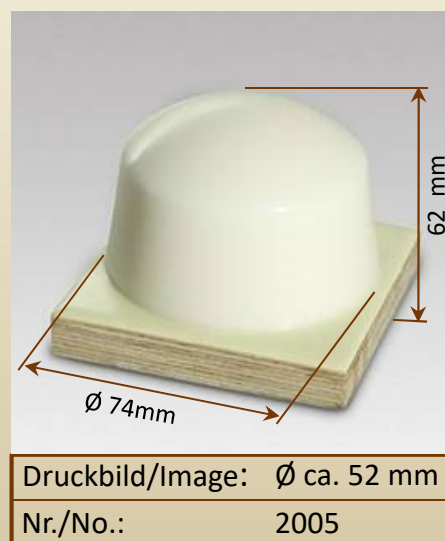

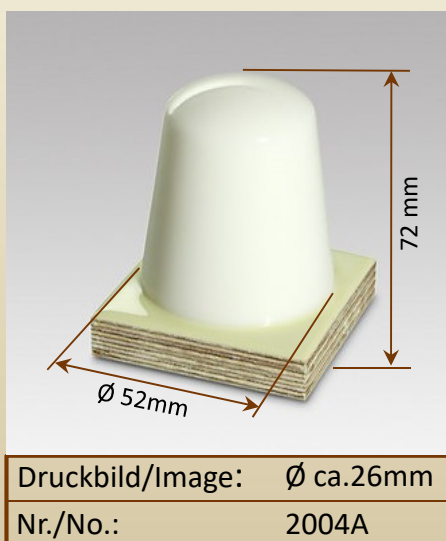

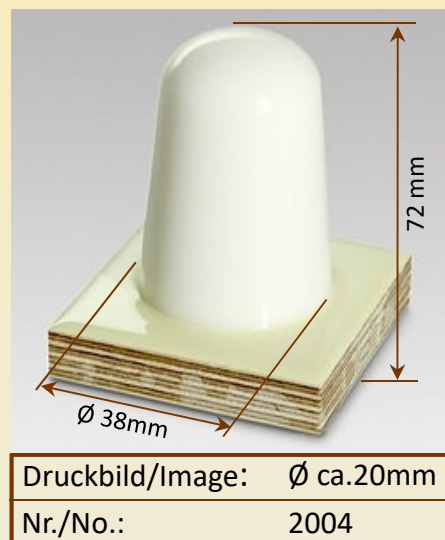

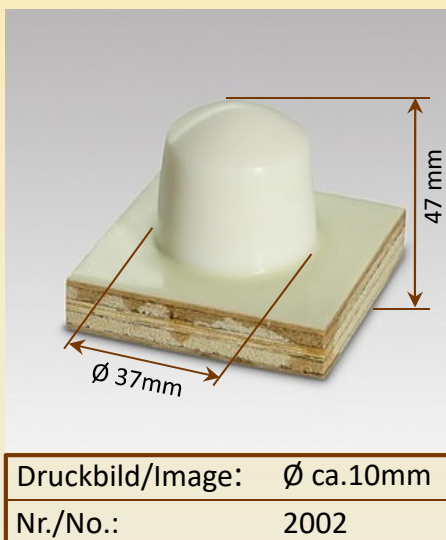

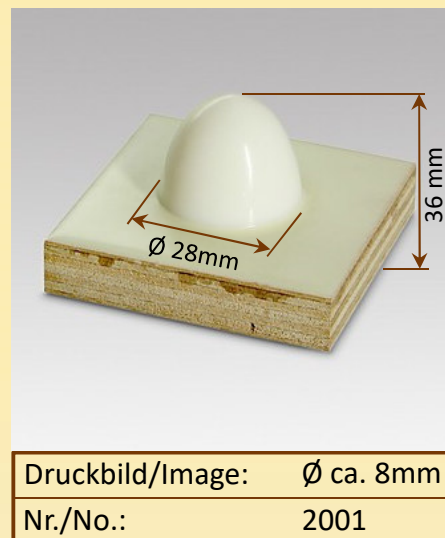

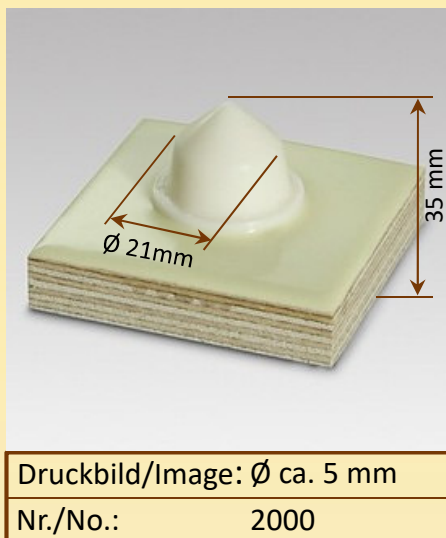

soft → **w** → 2-4° Shore A
medium → **n** → 6-8° Shore A
hard → **h** → 10-12° Shore A
special → **s** → customer specific

Design, size and hardness of the pads
have to be selected according to
material, shape and size of the
workpiece and geometry of the print
image.

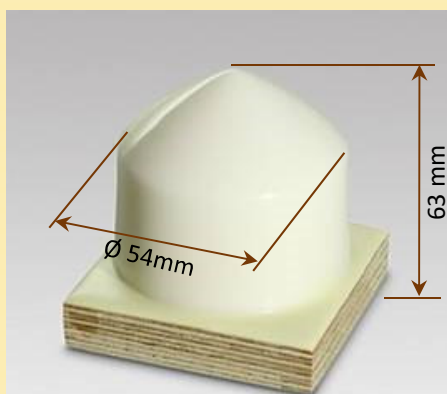

Wooden plates are applied to the pads
to mount the metal pad holder
(necessary to install the pad at the pad
printing machine).

If required we develop new pad designs
for special applications.
